

Dear,

I refer to your official information request we received on 11 March 2024 requesting the following:

"We have been in contact with you in the past with some other questions and requests related to the extent of Kaikoura's public water supplies, but for this research, and since we already have the spatial data of the council's drinking water pipelines (available at Environment Canterbury), we are just missing some related data that we need in order to progress our research: the material of which the pipes are made of, the installation date of the different pipes, and the condition grading of them (for those that have been graded, if any)".

Release of information

The information you have requested is provided in the attached Excel spreadsheet which identifies water schemes and provides pipe lengths, materials, installation dates and (where available) condition gradings.

Publication of responses to LGOIMA requests

Please note: our LGOIMA responses may be published on the Kaikōura District Council website a month after they have been responded to, with requesters' personal details withheld. If you have any concerns about this please contact the Official Information team on officialinformation@kaikoura.govt.nz

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Yours sincerely

Will Doughty
Chief Executive Officer
