

DEV2 - Ocean Ridge Development Area

The Ocean Ridge Development Area is a comprehensive living environment located west of Kaikōura Township between State Highway 1 and Green Lane/Ludstone Road on rolling limestone and mudstone country just west of Kaikōura Township. The purpose of the zone is to provide for residential housing in a wider native bush setting with some other activities provided for in defined areas to integrate and support the community. Ocean Ridge will provide further residential opportunity for the people of Kaikōura.

Issues

DEV2-I1	Landscape and <i>amenity values</i>
<p>Inappropriate development can diminish the conservation, landscape and the <i>amenity values</i> of this area.</p>	

Objectives

DEV2-O1	Development is compatible with conservation, landscape, and <i>amenity values</i>
<p>To enable the establishment of <i>residential activities</i> and other associated <i>buildings</i> and uses that in terms of number, location and scale, sustain the conservation, landscape and <i>amenity values</i> experienced by locals and visitors to this part of the Kaikōura District.</p>	

Policies

DEV2-P1	Development occurs according to the <i>Outline Development Plan</i>
<p>To enable the development of residential and low density residential housing in areas identified in an <i>outline development plan</i>, so as to ensure the design elements of development are incorporated in order to maintain or enhance the quality of this environment.</p>	
DEV2-P2	Control <i>buildings</i> to limit effects

<p>To limit each residential area to a specified number of houses and to control location, <i>height</i> and <i>coverage</i> of <i>buildings</i> on individual allotments within the various areas so as to ensure the local environment is of a quality that would be expected by subsequent owners and the wider community, and to avoid adverse effects on neighbours such as shading.</p>	
DEV2-P3	Recognise native restoration planting
<p>To recognise the positive contribution that the establishment of native restoration plantings and open space would make to the development and the surrounding environment.</p>	
DEV2-P4	Require additional <i>building</i> controls and planting requirements
<p>To provide additional <i>building</i> bulk, location and design controls, and planting requirements, on the more prominent ridge so as to mitigate the visual impact of development.</p>	
DEV2-P5	Native restoration planting is maintained
<p>To ensure defined areas of native restoration plantings and open space areas are maintained and those areas are subsequently free of residential and other development, which would otherwise compromise natural, landscape and <i>amenity values</i>.</p>	
DEV2-P6	Manage effects of <i>home businesses</i>
<p>To enable the establishment of <i>home businesses</i> in <i>residential units</i> provided it does not compromise the <i>amenity</i> of neighbours.</p>	
DEV2-P7	Enable supporting service activities
<p>To enable the establishment of <i>community</i> and <i>recreation activities</i>, <i>visitor accommodation</i>, and small-scale <i>restaurant</i>, <i>office</i> and <i>retail</i> sales, including the provision of convenience goods, in defined areas in order to provide services that are of a nature and scale appropriate to the comprehensive living environment.</p>	
DEV2-P8	Ensure <i>earthworks</i> are appropriately managed
<p>To ensure <i>earthworks</i> associated with the development of the area, and the associated rehabilitation of disturbed ground, are carried out in manner that avoids or mitigates adverse visual effects.</p>	

DEV2-P9	Ensure provision of services
<p>To ensure:</p> <ol style="list-style-type: none"> 1. the supply of potable water; and, 2. the satisfactory disposal of sewage and stormwater; and 3. the connection of electricity and telecommunications; <p>are established in a manner that sustains the landscape and <i>amenity values</i> of the area.</p>	
DEV2-P10	Provide for integrated road network
<p>To provide for an integrated road network that links the Ocean Ridge Development Area roading network to State Highway 1, Green Lane and adjacent rural land.</p>	
DEV2-P11	Promote Zero Waste policy
<p>To promote Council’s “Zero Waste” policy by promoting and encouraging the reduction, reuse and recycling of unwanted materials.</p>

Methods Other Than Rules

DEV2-M1	Use of <i>Outline Development Plan</i>	
<p>Provision of the Ocean Ridge Development Area and rules and an accompanying <i>outline development plan</i> to control the use, development and protection of land in the zone. The land use rules relate to the following:</p> <ol style="list-style-type: none"> 1. The location and number of <i>residential units</i> in specified areas. 2. The location, <i>height</i>, and <i>building coverage</i> of <i>residential units</i> on individual allotments. 3. Noise and lighting. 4. The establishment of non-residential activities in a defined area and some of which are to be of a limited size within those areas. 5. <i>Buildings</i> or <i>earthworks</i> in the Native Restoration Planting Areas, the Residential Native Plantings Areas, Open Space/Grazing areas, Mixed Native Visual Integration Planting and <i>curtilage and building areas</i>. 		
DEV2-M2	Provide educational information on vegetation	

<p>Provision of information on a regular basis to inform residents of garden plants that should not be established due to their invasive potential into the adjoining native restoration plantings. Refer to Appendix 2 of the Native Restoration Management Plan, which is required under the performance standards in SUB - Subdivision and other associated standards.</p>	
DEV2-M3	Use covenants and <i>building</i> and landscape design manual
<p>Provision of covenants on the titles of the residential allotments on the main ridge in favour of the developer that require compliance with a <i>building</i> and landscape design manual.</p>	
DEV2-M4	Waste management guidelines
<p>Guidelines to promote and encourage the reduction, reuse and recycling of unwanted materials – refer to the Waste Management Guidelines - All Zones in Appendix 2.</p>	

Principal Reasons

DEV2-PR1	Residential development occurring in a sensitive area
<p>Provision has been made for a residential and low density residential development with associated <i>community, recreational</i> and limited commercial uses, all within defined areas, to create an integrated development known as the Ocean Ridge Development Area. The <i>buildings</i> are to be established within an open space and native wetland and dryland planting setting. Reserves and walkways are also to be provided for the public. The adjacent Kaikōura Golf Course is also a feature for the development.</p> <p>The landscapes along this part of the coast are dominated by the coast and lowland floodplains formed from the Kowhai River with adjacent rolling hills, truncated by limestone bluffs in some locations. The impressive seaward Kaikōura range forms the wider backdrop. The Ocean Ridge Development Area forms part of the rural gateway to Kaikōura and parts of the zone, in particular the main ridge, are visible from the surrounding area. In sympathy with this environment, the <i>buildings</i> are to be carefully located and the surrounding areas planted in native bush while maximising viewing corridors for subsequent occupants. In addition, existing wetland and riparian areas within Ocean Ridge are to be enhanced and/or restored. To achieve these outcomes, <i>outline development plans</i> have been introduced, to restrict <i>building</i> to specified areas, and in some circumstances to individual <i>curtilage and building areas</i>. The zone contains controls on the use, servicing, number, and bulk and location of <i>buildings</i>. Some rules minimise upward light spill.</p>	

Light spill has the ability to confuse the navigation of seabirds, especially the Hutton's Shearwaters passing to and from their nesting and breeding grounds. In the case of the main ridge there are further controls on *buildings* that reflect the prominence of this location. There are further *building* design and landscape controls to be covenanted on the residential titles located on the main ridge in order to promote a living environment with a high level of aesthetic coherence.

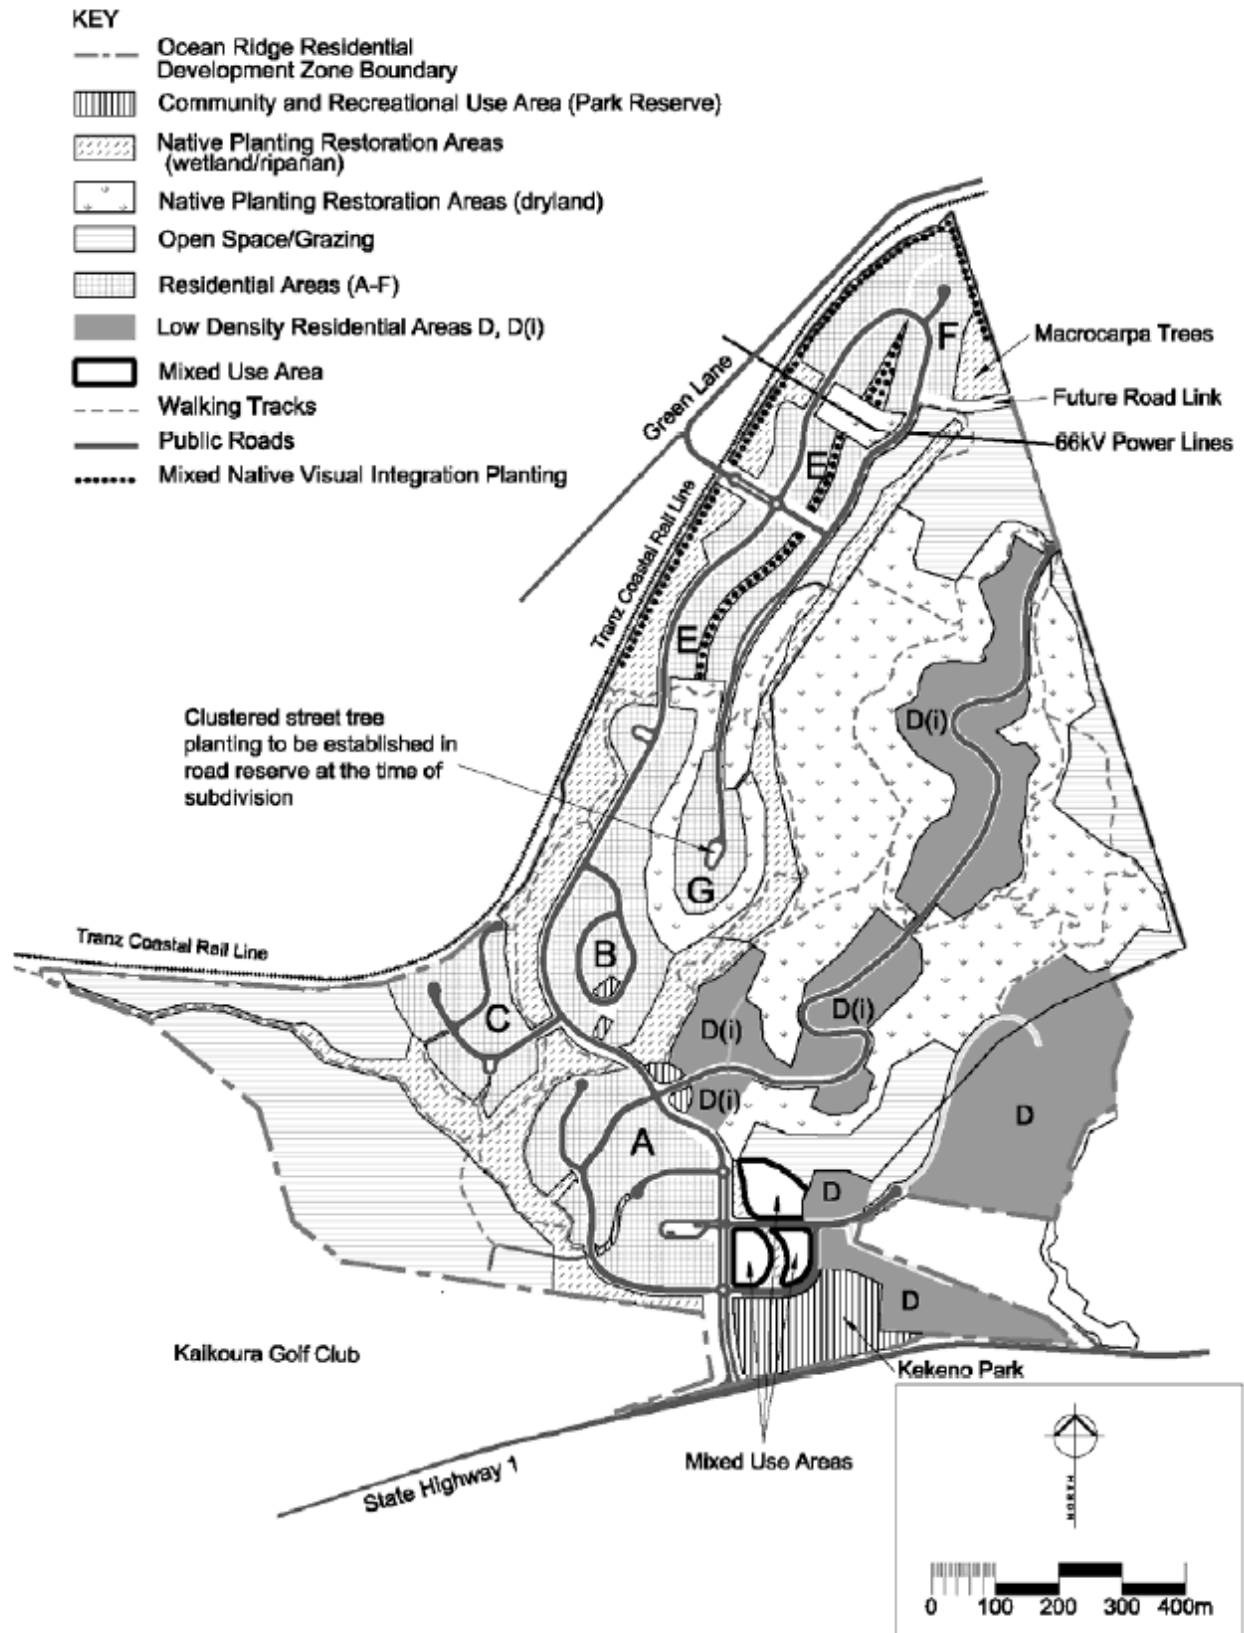

The establishment of services, reserves, and native plantings and public walking tracks are also requirements on subdivision.

Residential and other development are to be avoided in the areas to be planted in native vegetation except for some small *buildings* for *recreation* purposes, such as pergolas, or *buildings* to store materials used for the maintenance of the vegetation.

Anticipated Environmental Results

DEV-A1	Anticipated environmental results for the Ocean Ridge Development Area
<p>The development of <i>building</i> areas in an environment that includes:</p> <ol style="list-style-type: none"> 1. dominance of open space and native restoration planting over <i>buildings</i>; 2. diversity in housing between residential areas and lifestyle types to meet a range of community needs; 3. carefully designed roading and servicing to future proof the area and avoid or mitigate potential adverse effects on the environment.
