Issues

TEMP-I1	Environmental effects of relocated <i>buildings</i>
The relocation of <i>buildings</i> has the potential to have significant adverse effects on neighbouring properties or the environment generally.	
TEMP-I2	<i>Temporary buildings and activities</i>
<i>Buildings</i> and activities may be able to remain temporarily on a site for the duration of the activity even though they may not comply with standards of the Plan.	

Objectives

TEMP-O1	Manage adverse effects of <i>temporary buildings</i>
To control relocatable <i>buildings</i> , so as to avoid, remedy or mitigate any adverse effects on the environment.	
TEMP-O2	Provide for <i>temporary buildings</i> and activities
To provide for the establishment of <i>temporary buildings</i> and <i>temporary activities</i> to enable people to meet their short term cultural, economic and social needs.	

Policies

TEMP-P1	Manage <i>amenity</i> effects of <i>temporary buildings</i>
To ensure that the design and appearance of any relocatable <i>building</i> does not adversely affect the <i>amenity</i> of the surrounding locality.	
TEMP-P2	Enable <i>temporary building</i> use with time limits
To enable <i>buildings</i> to be erected on a short-term basis, provided they are of limited scale.	
TEMP-P3	Enable <i>temporary activities</i> with time limits

To enable activities and their associated *buildings* to occur where they are of limited duration.

Methods Other Than Rules

<p>TEMP-M1</p>	<p>Methods to manage <i>temporary buildings</i></p>
<p>1. The provision of rules to control the appearance of relocatable <i>buildings</i>.</p> <p>2. The provision of rules to limit the size of <i>temporary buildings</i> and <i>activities</i> and the length of time they can be established.</p>	

Principal Reasons

<p>TEMP-PR1</p>	<p>Use of <i>temporary buildings</i></p>
<p>Relocated <i>buildings</i> are an alternative means of providing buildings, be it for residential, business or farming purposes. However, any such <i>buildings</i> should satisfy or be compatible with the existing <i>buildings</i> and <i>amenity</i> of the surrounding area.</p>	
<p>TEMP-PR2</p>	<p>Flexibility of <i>temporary building use</i></p>
<p><i>Temporary buildings</i> are generally used for short term and interim purposes and as such flexibility in location and appearance is appropriate. In the same way, flexibility is needed for the operation of <i>temporary activities</i> which are short term but provide for an important element in the economic and social well-being of the community.</p>	

Anticipated Environmental Results

TEMP-A1	Anticipated environmental results for <i>temporary buildings</i> and <i>activities</i>
<ol style="list-style-type: none">1. Flexibility in the provision for <i>temporary buildings</i> and <i>temporary activities</i>.2. Relocated <i>buildings</i> which have regard to and protect the general <i>amenity</i> of the zone or locality within which they are sited.
